

Ahead together with our apprenticeship programme

GSK apprenticeships are a brilliant alternative to college courses or university. As one of the world's leading biopharma companies, we offer an on-the-job learning experience that really stands out. You'll earn a salary for performing a real role – with your practical experience backed by classroom sessions.

When does the apprenticeship start?

Our apprentices start each September. Applications are open December 22 until end of January 23.

What qualifications do you need?

A minimum of 5 GCSEs or equivalent at grades 9-5 with a minimum of 96 UCAS points from your top 3 A-Levels for degree

apprenticeships. Please see each specific job description as each will vary according to the academic programme.

Benefits include:

A competitive base salary & annual bonus
Excellent development opportunities
Good career prospects for ambitious and talented individuals.
