

Fire plan

1 Escape route ...

How do you usually get out of your house?

Is there another way if its blocked?

If there is smoke, what should you do?

How do you check if a door is safe to go through?

How do I alert my family?

Once outside where is my meeting point?

Where are my keys kept?

2 Can't get out?

Where is my safe room?

Does it have a window?

Does it have a phone?

What number do I ring?

How do I stop smoke coming in?

How can I get attention?

What potential hazards have you identified for your own home?

Possible fire risks ...

THINK!
Why is it important to shut doors at night?

What doors can be shut at night?

THINK!
Why is it important to have working smoke alarms?

Where do you have smoke alarms in your home?

How often should they be tested?

Where can I get some for free?
